elevatio	appear to b ns of the s ly wide fra	structure	. The or	oeni	ngs are	relatively	y large with

The main entrance is located in the center bay of the front elevation. The entrance appears simple and is without decorative brickwork or a transom. Secondary entrances are located in the west gable elevation and to the rear addition.

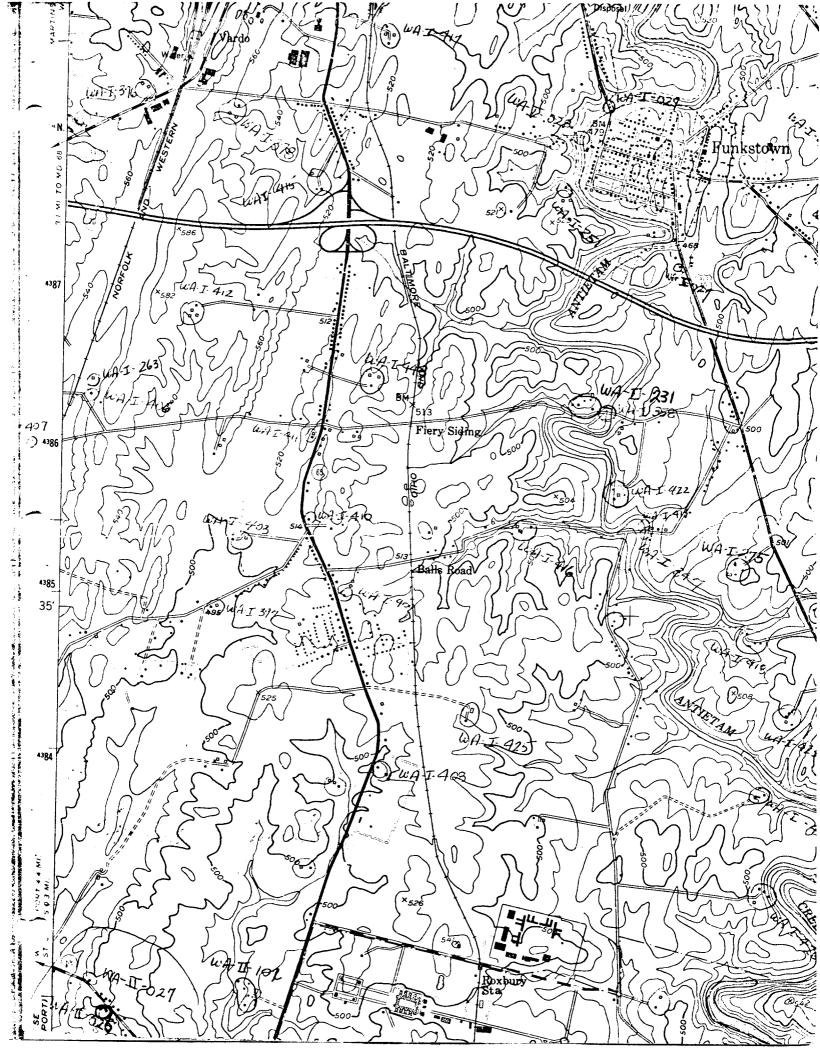

The roof is of sheet metal, terminating with plain barge boards set directly against the end walls. The eaves are finished with simple boxing. An exterior chimney of brick is located at the east gable end of the house, north of its center.

The structure appears to be in good to excellent condition and is located on a tract containing 7.16 acres.
